RYAN REX GIMOTEA

Frontend Developer

ryangimotea@gmail.com | 5001 Iloilo City

SUMMARY

Frontend Developer with experience in building and maintaining web applications, turning Figma designs into responsive, user-friendly interfaces, and working with APIs. Familiar with AI-assisted development tools and collaborating with designers and developers to build functional, visually appealing web experiences.

WORK EXPERIENCE

MySchoolSuite **2026 - Present**

- AI-Assisted Development: Utilized AI prompting techniques and AI-powered development tools to streamline coding tasks, troubleshoot issues, and improve development efficiency.
- GitHub Version Control: Managed code changes using GitHub, maintained version control workflows, and collaborated with team members to ensure organized code management.
- Code Review and Quality Assurance: Checked code changes for consistency, functionality, and potential issues before merging updates into shared codebases.
- API Integration and Maintenance: Worked with APIs to connect application components, handle data exchange, and support the integration and maintenance of application functionality.

Cogitiate **2021 - 2025**

- UI/UX Implementation: Collaborated with UI/UX designers to translate Figma designs into responsive, functional, and visually consistent web interfaces.Acted as a liaison between departments, fostering effective communication and collaboration.
- Web Application Maintenance: Maintained and enhanced existing web applications by addressing issues, refining features, and improving overall usability and performance.
- Backend Collaboration: Worked closely with backend developers to integrate frontend interfaces with APIs, coordinate data requirements, and ensure seamless application functionality.
- Cross-Functional Development: Collaborated with senior developers on development tasks, technical implementations, code improvements, and project requirements.
- Administrative and Technical Support: Assisted senior management and team members with technical tasks, development initiatives, and project-related responsibilities to support business and engineering objectives.

Waffle Time Inc. **2019 - 2021**

- Application Workflow and Database Design: Designed the application structure, user workflows, and database schema for a franchise profiling desktop application, helping organize data relationships and define how information flows throughout the system.
- Desktop Application Maintenance: Maintained and updated existing desktop applications to support functionality, usability, and operational needs.
- Database Maintenance: Assisted in maintaining databases, ensuring data consistency, and supporting the reliability of application data.
- POS System Maintenance: Maintained and troubleshot Point-of-Sale (POS) systems to support daily business operations and resolve technical issues.

Internship - Callbox Inc. **2017 - 2018**

- Designed and developed websites and landing pages for clients, focusing on visual appeal, usability, and client requirements.
- Created and designed engaging banner advertisements using Adobe Photoshop to support digital marketing and promotional campaigns.
- Collaborated with senior developers on web scraping projects, assisting with data extraction, data organization, and the maintenance of existing scripts and development tasks.

EDUCATION

Bachelor of Business Administration **2012- 2018**

Central Philippine University

- Bachelor of Science in Information and Technology

KEY SKILLS

- Technical skill : React, Next.js, TypeScript, TailwindCSS and Git
- Soft skill : Collaboration, Creative, Communication, Critical thinking
- Language : English
